

Large International Biotechnology Group seeking high potential leaders and experts...

... to drive the next phase of its international expansion program

Eurofins is a leading, fast growing, international life science company. With 8.000 employees, Eurofins provides testing services to the pharmaceutical, food and environmental industries in 30 countries across the world, drawing on the latest developments in biotechnology. The company is listed on the Paris and Frankfurt stock exchanges. Due to our ambitious expansion goals for the next 5 years, we have several openings for:

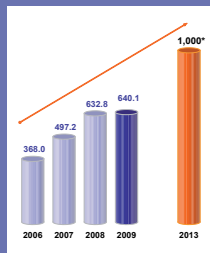

Future Leaders and Entrepreneurs

We are looking for top graduates from a leading business or engineering school or top tier science university with 0 to 5 years professional experience, seeking a challenging next step in their career in an entrepreneurial and international environment.

Please send an electronic application including CV to personal@eurofins.se
